A Cemetery Scavenger Hunt

Lots of people think that cemeteries are spooky places. Really they are places where we remember and honor those friends and families that have passed. Visit any cemetery and find as many answers as you can. Then return this to Carnegie Public Library. You'll have fun, get outdoors, and learn something about our county. You will notice that we have a hunt for both young children and one for older children and teens. Choose the one that suits you best.

FOR YOUNG CHILDREN

Put an X on things you see.
